

KTH
Computer Science and Communication

Maj 16, 2014

To whom it may concern,

Jacob Lönnö, civil registration number 860519-2734, has been my student at KTH for two years, studying courses in Computer Science.

My experience of Jacob is positive. His performance has been excellent with top grade in my course as well as achieving a distinction for the project that he was a part of.

Jacob now informs me that he is planning to attend IIT Delhi, studying for his bachelor of Technology degree. I believe that Jacob is now ready for this stage in his education.

Sincerely,

Cristian Bogdan
Senior Lecturer, CSC, KTH
